RUSSIANS MAKE NEW GAINS IN GALICIA

NOW AVAILABLE FOR WAR DUTY

President Issues Proclamation Affecting All Militia

N. Y. REGIMENTS JULY 15

But Formal Draft Will Not Apply Until Aug. 5; New York Troops to Camp in South Carolina

Washington, D. C., July 9. — The last step necessary to make the entire National Guard available for duty in France was taken today by President Wilson with the issue of a proclamation drafting the state troops into the army of the United States on August 5. The National Guard of New York, Pennsylvania, Ohio, West Virginia, Michigan, Wisconsin, Minnesota, Iowa, North and South Dakota and Nebraska will be called into the federal service on July 15 and sent to concentration camps in the south, although the draft will not apply formally to them until August 5.

a few officers and special units not required for tactical organization. Similarly the state troops from Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New Jersey, Delaware, Maryland, District of Columbia, Virginia, North and South Carolina, Tennessee, Illinois, Montana, Wyoming, Idaho, Washington and Oregon are called into the federal service on July 25.

To make certain that the purpose of the National Defense act is carried out the proclamation also specifically declares the men drafted to be discharged from the old militia status on that date. In that way the constitutional restraint upon use of militia outside of the country is avoided and the way paved for sending the men to European fronts.

WILSON CALLS ON BAKER

Washington, D. C., July 9. — President Wilson called on Secretary Baker at the war department this afternoon but protested smilingly to a group of newspaper correspondents that only routine business was considered at the conference.

"This is not a question of free speech, for free speech is guaranteed to us under the constitution. No American worthy of the name believes in anything else than free speech, but free speech means not license, not free speech means the freedom of the law, clear and orderly expression that every man or woman in the land, citizen or alien, may engage in a lawful and orderly fashion and that same free speech is guaranteed to us and no law should deny it to anyone in the confines of the United States of America."

The prisoner's pedigree was taken, Berkman saying he was born in St. Petersburg, 41 years ago. Miss Goldman gave her birthplace as Kivon, Russia. She says she is 18 years old.

In charging the jury, Judge Mayer said:

"The list of wounded included non-commissioned officers, enlisted men of the United States navy and civilian laborers.

The explosion wrecked nearly a dozen packing and shell houses in the vicinity of the magazine.

The explosion occurred at 7:51 a. m. Eye witnesses said a column of black smoke arose 300 feet. Shells, parts of steel plates and debris were hurled in all directions.

THE RAID ON LONDON.

There is no question in the mind of Americans as to the quality of the act of Saturday last, when 20 German airplanes threw bombs down upon the city of London. Favored by atmospheric conditions, they swooped down over the city and, separating in columns dropped explosives, not over army camps, or houses of parliament or public buildings or palaces, but indiscriminately in any part of the city. It was not an attempt to destroy fortifications, or arsenals or munitions factories—it was just plain, downright attempted murder.

But though it was murder, it was not in any way different in its moral character from other instances which from the beginning of the war Germans have engaged in. The ruin, ravage and rape of the Belgians, the wanton destruction of cathedrals and universities and historic spots, the sinking of the Lusitania—which ever will be an ineffaceable blot on the "scutcheon" of the German fatherland—the ruthless sinking of unprotected merchantmen, the shelling of crews of sunken ships when trying to escape in open boats, the attempted treaties by which neutral countries might be captured and partitioned, the aid given to Turkey in the slaughter of her Christian subjects, and many another thing more horrible, all come to the same thing—that whatever the German may be as a citizen in days of peace, he is absolutely under the control of the Kaiser and therefore entirely conscienceless in days of war.

It is because of these things that the world at large, as distinguished from the central powers, is ready to fight to the last man and last drop of blood—a knowledge that the ancient spirit of Caesar's time, when the northern barbarian, having gathered "copious stores of provisions," through a period of years went out to conquer, still abides; and that there is no safety for mankind so long as the spirit of rapine and of autocratic government reigns anywhere on earth.

INDIRECT HELPERS.

There is such a thing as indirectly helping Germany, and that is what apparently some of the so-called neutral countries are doing. In Switzerland, for example, all the condensed milk and all the milk and meat products go to Germany. To supply food for the line of the country, and food for the people who, if the home product were not shipped, would subsist upon it, there must be imports from without; and most of these shipments come from the United States. Under such circumstances, the American products just as surely help Germany as if they were sent there for consumption. Cut off the shipments from the allied countries to Switzerland, and she must consume her own food products, and will have nothing for Germany.

Holland and Scandinavia, in like fashion, have bought liberally from the United States. It does not matter whether the same goods were re-exported to Berlin. It is the use of them in Holland enabled the subjects of Wilhelm to ship other things to Germany which save for these shipments she would herself consume, the effect is the same, and we are indirect helpers in the work of feeding Germany.

For these reasons, if not for others, the people of the United States should stand squarely with the President in the plan to place an embargo on food products to neutral countries which on one side have free access to German markets. We do not want to supply food for the German fighting men, either directly or indirectly.

COMPLETING THE FOOD BILL.

It is much to be lamented that the two houses of congress do not get together in the matter of the food bill. The liquor question should be settled by leaving in the hands of the President, as has been proposed in the senate, the full authority to act in the premises, so far as wines and beer are concerned. In like manner, there should be export control, food embargo, regulation of shipping, and in flagrant instances at least a fixing of prices. There are many interests in the houses of congress, and it is not unnatural that there should be many influences at work to further their own interests. But in an emergency like this present one, all these marked cards should go into the discard. The one thing to be considered is the safety of the nation, and whoever does not work for the good of the nation and for our personal safety is very far from being a patriot.

Cut out the speeches, gentlemen; eliminate consideration of personal or selfish interests; and get down to the real issue, which is that the country to the last dollar of money and ounce of service has need of you. This is not a war for section or country or caste or class; it is war for humanity, and whoever does not bear this in mind now will have bitter need to recall it hereafter.

Lincoln never thought that negroes would flee for safety from his state across the river into Missouri.—[New York Evening Post]

CURRENT COMMENT

Complaints of labor shortage are more frequent and arrangements are being made to admit more women in light manufacturing jobs.—[Iron Age.

Time is fleeting, and if fruits and vegetables are to be preserved against a hard, uncertain winter, the women should rush the canning.—[Newark News.

Now they are saying that women who are taking men's places in shops do more and better work than the men. But do they get more for it?—[Knickerbocker Press.

The report of a great decrease in ship sinkings is rather misleading. There is a considerable increase in the number of subs sunk within the last week or two.—[Albany Argus.

The German people are getting their scanty meals at municipal soup kitchens, they are wearing wooden shoes, and paper clothing; and they think that they are whipping Great Britain by starving her.—[Syracuse Post-Standard.

It is gratifying to know that in the disposal of his great fortune, Colonel Oliver H. Payson did not forget Hamilton college. The gift of \$200,000 to that institution will be appreciated by all friends of the splendid old school on the Oneida hills.—[Utica Observer.

Conservatives in Germany, noted for loyalty to the Emperor, are asking the government to favor election reform that shall extend the suffrage and make it more uniform. The Kaiser probably does not care how many persons vote as long as they vote his way.—[Troy Times.

The 13 suffragists arrested in Washington for militancy may reflect that the bad luck to themselves in the number is as nothing to the bad luck their foolish tactics are bringing to their cause in this and other states. What enemies of woman suffrage could desire better aid than its own misguided adherents are giving them?—[New York World.

Action which is said to be contemplated at Washington for federal interference with the East St. Louis riot should be abandoned. The state of Illinois is armed with all needed power to deal with this violation of its own laws and this contemptuous defiance of its own authority. No question of federal rights or interstate rights was raised by a mob animated by blood lust.—[Globe-Democrat.

Belief that an agreement for peace with Russia alone could be reached, which has been proved to be a delusion, dies hard in Germany. Many political publicists are still trying to maintain it by means of argument. But in all arguments that they present, the purpose to gain special advantage for Germany is so plainly revealed that the only effect upon Russia, of the published articles whose substance may be transmitted to that country, must be to strengthen its determination to fight until the war ends for all.—[Albany Argus.

A Washington newspaper quotes a military man as critical of the agitation for large expenditures on the aerial service. "It has fired American imagination," he says, "but imagination does not win battles." There might be something in this if it were not that the imagination of the allies has been kindled also. They would be the last to let their imagination run away with them. They know what must be done to win the war. They know what is helping most to win battles. Experience is their guide, not fancifulness, and they are backing that experience with a sixty-million-dollar outlay for airplanes in America.—[Toledo Blade.

Asks Consideration of Adults.

Editor Star.—In the discussion of the project to provide bathing facilities at Wilber park much has been said about accommodations for the children but little or no reference to swimming pools for adults. The writer believes that when the project is undertaken (as it should be at once) it should have provision also for swimming pools for adults, where the water is somewhat deeper and where those who appreciate swimming pools, of whom there are many in the city, can be provided with the pleasing and healthful diversion. The park is destined to become a great asset for the city and no step should be taken toward damming the creek and providing a lake there in the summer without making it a substantial and permanent one and one that will permit sections of varying depths and such will provide for both old and young. Let the project meet the demands of all ages and of both sexes.

A Conductor.

Despite rumors to the contrary, the New York State fair is to be held this year as usual, the dates being Sept. 10 to 15 and the place Syracuse. The military encampment is on lands adjoining the State fair grounds and (rather than preventing the exhibition) will be an added and patriotic attraction. The commission is working harder than ever to make the fair this year a grand success.

French Army Trench Cleaners

VIRCHON CLEANERS

These French soldiers have a peculiar duty. They go into the captured trenches and dispose of any Germans left behind. They perform this unpleasant task by either asphyxiating the Germans or shooting them with revolvers if they show the slightest resistance and do not surrender immediately.

BE CANNY!

Is the Punning Caption of a Letter of Advice from Secretary Wilson.

Get that cunning impulse. Make your hoe this summer keep your can opener busy next winter.

Get ready for canning season now. Regrets are the only things ever canned in the jars you forgot to order.

Can nothing that can be kept without canning. Dry such vegetables as corn, string beans, navy beans, mature Lima beans, etc.

You can brace about your garden all winter if you have your canned evidence on the dinner table. Concentrate products, especially soup mixtures, so that each container will hold as much canned food and as little water as possible.

Really there is nothing to canning fruit and vegetables except care, cleanliness, fresh products, jars, and heat.

Lieut. Ira Quimby of Morris.

Notke has been received by Ira Quimby, who is spending his furlough with his mother, Mrs. Ira Quimby, at Morris, that he has been commissioned as first lieutenant of engineers in the regular army. Lieut. Quimby, who comes from genuine fighting stock, his father, the late Colonel Quimby, being a soldier in the rebellion and for many years after an officer in the regular army, has had three years of experience as a private in the regulars. Later he graduated from Cornell university, where he had considerable military training, and later was an engineer on the East River tube in New York city. More recently, and to the present time, he has been connected with the State Highway department as engineer in charge of construction work near Syracuse.

Warning to Motorists.

The New York State Automobile association is notifying motorists throughout the state that thieves are stealing cars night and day in all sections of the state. Number plates are being changed to prevent identification. Motorists should keep their cars locked when unattended.

"BONE DRY" PROTECTORS.

Employees of Conservation Commission Must Avoid the Cup.

Albany, July 9.—"Bone dry" is the word for game protectors of the conservation commission. Henceforth, with the overseas troops and officers of all well regulated police establishments, drinking by the game protective force, while in uniform or on duty, will be cause for dismissal. The new regime follows instructions issued by Conservation Commissioner George D. Pratt, and made effective today by a general order of Llewellyn Legge, chief of the division of fish and game.

On and after July 2, says the order, all protectors are forbidden, while in uniform or on duty, to frequent saloons or drinking places, or to indulge in intoxicants. Protectors failing to comply with the order will be subject to 30 days' suspension for the first offense, and for the second offense will be suspended for 60 days and reduced to the third grade. Reduction to the third grade automatically prevents a protector from obtaining an increase in salary for the following year. The third offense will be sufficient ground for dismissal for the good of the service.

Valor and Value!

The valor of a soldier isn't determined by the stripes on his sleeve, any more than the value of clothes is determined by the price on the sleeve ticket. Valor and value are alike; they represent respectively what the soldier DOES and what a suit of clothes DOES.

KUPPENHEIMER CLOTHES

bear very striking outward marks of superiority, their style is readily recognizable as "select;" they give the wearer a well-groomed appearance that many a custom tailor envies. Work on Morris Road.

Work on the Morris state road to
Oneonta is progressing steadily, and
it is the hope of the manager of the
construction work to have the entire
sub-base in this year for Morris to
this city. At present the sub-base is
completed to Patrick hill, and the
work of sub-basing is going on from
the upper part of that hill to the
Naylor school house. About three
hundred feet of the road per day are
now receiving the sub-base. Grading
is going on at Cornell hill and the road
is practically ready for the sub-base
to West Laurens. Though this is only
about one-third of the road from Morris
the hardest grading and filling
which was at Patrick's hill, Brock-
ways and Cornells, has been complet-
ed, and it is believed that the work
can be pushed more rapidly from
now on. The only trouble anticipated
is in securing workmen. If there is
no trouble with the labor problem, the
grading and sub-basing will doubtless
be finished, affording at least a pass-
able road during the winter.

Mrs. Hanley Still Improving.

The condition of Mrs. Susie Hanley,
who was injured on the night of July
4 on Broad street, continues to im-
prove, and it is believed that there is
much more than a fair chance for her
recovery.

Everett E. Holmes esq., representing
District Attorney VanHorne, has the
case in charge for the people and a
dozen or more depositions of persons
witnessing the accident or other-
wise familiar with some phases of it,
have been taken. Whether further
proceedings will be had in the case of
Volk, the driver of the car, will
doubtless depend on the condition of
Mrs. Hanley and the nature of the af-
fidavits.

Autumn Lodge Picnic.

Autumn lodge will hold a picnic in
Neah-wa park Wednesday. Bring

cally cost prices to obviate any ex-
pense to removal to their show rooms
in the Baldwin block. Mr. Kilpatrick
will remain with the Shearer com-
pany until the date named and assist
in disposing of the stock. In the bar-
gain offerings are included such well
known makes as Mehlins, Norris &
Hyde, Munn and Walton pianos. The
assortment of smaller musical instru-
ments, sheet music and accessories
will be offered at bargain prices for
the next few days, affording an excel-
lent opportunity to those seeking op-
portunity to effect a saving on pur-
chase prices.

During the years that the Shearer
company has been in business, it has
seen no less than 20 competitors
come to contest in the field with them
and all but one, recently established,
having gone. The success of the
Shearer business has been founded
upon giving quality goods at reason-
able prices and the company never
carried a more truly representative
line than at present, all its brands
being leaders in their respective class.
They have such pianos as the Knabe
and the Krueh & Bach, and were
early among the firms to appreciate
the attractiveness of the player piano.
Of these the firm sells the widely
known Welte Mignon which is easily
in a class by itself, many of the fa-
mous pianists playing for only this
one make. Its shading and perfectness
is a surprise and revelation to all mu-
sicians who hear it for the first time.
Among talking machines the firm
handles only the Aeolian Vocalion, the
superiority of which is well known.
In violins, guitars, etc., the firm's
motto is the best at the lowest possi-
ble prices.

While offering the Munn stock at
low prices it also wishes to call the
attention of all buyers to its own well
assorted stock of musical merchan-
dise.

In addition to the stock of the Munn
store, all the fixtures and furnishings
are for sale and application for the
same should be made at the Shearer
store.

Summer School Opens.

The classes in the State Normal
summer school commenced yesterday
morning and all the students entered
with the true "Oneonta Normal"
spirit.

Nearly five hundred have thus far
been registered. It is estimated that
after all have been enrolled the num-
ber will fall short of last year's regis-
tration by about 75. The unsettled
conditions and the difficulty in secur-
ing board have had their influence.
Last year over 600 attended the ses-
sion.

Ten young men have entered the
school, in comparison with 30 last
year. The present attendance, how-
ever, is as great as the school can well
accommodate. The classes will not be
so crowded and more satisfactory
results will be obtained. Until the
state builds that much-needed addi-
tion, five hundred students are plenty.

GOOD TREATMENT AND FOOD

Says Private J. J. Monahan of Oneon-
ta, Now in Washington.

Editor Star: In visiting Oneonta—
my home—last week, I was asked by
lots of friends if I was not fed badly.
So I want to say that we got the very
best of food and lots of it. Also we
are used well and do not work as hard
as we do at home. I came here just a
private three weeks ago and will be
made a sergeant next month. Hoping
you will see fit to print this, I am,
Truly yours,

DOUBLE BILL AT STRAND TODAY.

Little Mary McAllister and Shirley
Mason in Her Latest Feature.

The Strand offers an unusual bill
for today, which will include Little
Mary McAllister, the blondin's great-
est child actress in "Do Children
Count." These stories are entirely
new and this little star will no doubt
become a great favorite in Oneonta,
the same as she has elsewhere. The
story will be left as a surprise for you.
This story is absolutely clean morally
and full of pulsating human interest.
While this is a feature in itself, Shir-
ley Mason will be shown in her latest
five act feature, "Light in Darkness,"
an interesting, up-to-date story, offer-
ing this popular star a very fitting
story. Musty Suffer will also be
shown in one of his funny comedies.

HAPPY HOUR THEATRE TODAY.

Wire."

URGES FOOD CONSERVATION

Woman's Club Told to Prevent Un-
necessary Waste at their Tables—
Annual Waste in United States Costs
\$700,000,000 While People in Europe
Starve.

Advocating great care and conser-
vation in the consumption of food in
the home, Mrs. Schoonmaker of New
York spoke in the rooms of the Wo-
man's club last night.

She declared that the women of our
country know so little about food
values that it is appalling how much
food goes to waste. She asserted that
\$700,000,000 worth of food is wasted
by the American family annually, ac-
tually thrown into the garbage pail,
while women and children are starving
in Europe.

And they are starving nearer home,
said Mrs. Schoonmaker. They are
starving as near to Oneonta as Scho-
neady. Women in that city when
told about the hunger of Europe, re-
turned on the speaker and asked why
so much should be said about Europe
when many in Schenectady were
starving.

Cornell University is scattering
pamphlets broadcast telling how to
make the most use of a given quantity
of food, and in this connection the
speaker urged that all women do their
best to prevent waste, not only at their
own table, but throughout the com-
munity. The effect of such a cam-
paign in Chicago was to cause one
scavenger to inquire if some one was
stealing the garbage because the cans
were not so full as before.

The "business as usual slogan" has
meant in some instances, declared Mrs.
Schoonmaker, keeping prices up even
to the point of letting food rot rather
than sell it cheaper. Much food, ac-
cording to the speaker, was dumped
on the meadows in New Jersey just
across from New York city, and left
there to rot because if it were put on
the market it would send prices
tumbling.

In one part of her address, Mrs.
Schoonmaker said: "The war has con-
vinced me that somehow underneath
all things there is a tie of brotherhood.
It is not possible today for one-half
of the world to starve without the
other half doing something to help
them. And I am glad of this spirit
of brotherhood if it will bind all peo-
ple into a closer bond of fellowship,
glad to bear the brunt of any pain to
help it come to pass."

Earlier in the evening, the members
of the club worked on surgical dress-
ings done in connection with the Red
Cross classes.

CITY ENGINEER MAKING PLANS

For Dam Across Oneonta Creek at
Wilber Park For Bathing Pool.

While perhaps no definite resolution
has been passed and the question of
available funds may finally deter ac-
tion this summer it is gratifying to
learn that L. C. Gurney of the park
commission has requested City Engi-
neer Gurney to prepare plans for a
proposed dam across Oneonta creek at
Wilber park and at a point above a
continuation of Spruce street, which
dam would provide a swimming pool
for the juveniles in the summer and a
skating park in the winter. There is
no doubt that public sentiment strong-
ly favors the construction of the dam
this summer and that a majority at
least of the aldermen would favor an
increase in the budget of the park
commission to assure the construction
of the park provided that the unap-
propriated funds in the hands of the
council warrant such an increase as
would assure the construction of the
dam and the completion of the bath-
ing pool.

It is understood to be the intention
of the city engineer at present at least
to make provision for a sectional pond
of varying depth to be separated by
wire screens so that there would be
provision for juveniles of varying ages.
The dam is to be so designed that the
water can be emptied from the pond
at any time. Mr. Gurney is to proceed
at once with the plans and it is a pos-
sibility that ere the summer ends that
the pool will become a reality. It is
quite generally admitted that no single
appropriation that could be made for
park improvement would afford so
much of good to so many as the con-
struction of the dam at this time.

"THE BURNING QUESTION."

Proved Big Sensation at the Oneonta
Theatre Yesterday.

"The Burning Question," the great
morality play presented at the One-
onta theatre yesterday, and which will
be repeated again today, is a picture
that embraces all the essentials of a
good photoplay—a powerful story, a
consummate cast and clear photogra-
phy. J. Hillary Martin yesterday gave
a very pointed and plain spoken lec-
ture, illustrated by slides, which were
actually photographed from the Chi-
cago vice district. Matinee prices 15c.
Evening 15 and 25 cents.

Tomorrow Company G band will be
heard at the Oneonta theatre in their
last concert of the season. In connec-
tion with the photoplay "Great Ex-
pectations," with the two stars Jack
Pickford and Louise Huff. Scenes of
this photoplay were taken at the Iro-
quois farm, Cooperstown.

LETTER FROM C. L. TAN.

Dated on Broad Pacific Nearing Japan on June 18.

The following letter received at this office and addressed to his friends, from C. L. Tan, long a student in America and one who made many friends in the city during his stay here, will be read with keen interest by his many friends among Star readers:

Dear Friends—Tomorrow we will be in Japan. The voyage has been a very pleasant one. There were only two stormy days, and of course I confined myself in my little room in spite of every advice and inducement to go on deck. I thought that if the worst would come to worst, I would rather be a nuisance in private than one in public, so I took to my bed and ate "a la reclining style" like bible times, and I assure you it was far more comfortable.

I can hardly realize that I am on the other side of the Pacific ocean, far away from the shores of good old U. S. A. My thoughts still drift back to the days spent in the states. Yes, I love their rocks and rills, their valleys and hills. I think of the people and the scenes of my college days. Oh what a privilege! Such memories will ever linger in my mind and my heart will always beat for the land of the brave and the free.

There are many Russians on board. They are mostly from the states, having been recalled by their government. They are mostly Socialists and not a few anarchists. They seem to be in ecstasy most of the time. I fear they have too rosy a view of their home coming. I rather think they are all enthusiasm with mighty little gray matter. Practically all of them have no faith in a personal God. I wonder where they will all end.

We have 17 Chinese students on board. They are a pretty good lot and we have great times together. We expect to do Japan of course. The land of the Rising Sun is truly pretty and her people are really doing wonderful things. I have a wholesome admiration for their achievements.

And now I must bid you all good afternoon, as I am expected on deck right away. Greetings to you all.

Cordially yours,

C. L. Tan.

DEATHS.

William Herbert Widger.

Laurens, July 9. — Legions of friends and relatives here were grieved this morning to learn of the death of William Herbert Widger, the 12-year-old son of Mr. and Mrs. W. H. Widger, which occurred at Binghamton last evening. The young boy had been suffering an illness for the last year and despite all efforts of medical skill he had been gradually failing. Two weeks ago his parents took him to the home of his aunt at Binghamton to consult the physicians there, but his condition was such that little relief could be had and for the last week he had failed rapidly.

The body was brought here this evening and taken to the home of his parents, where the funeral will be held Wednesday afternoon at 2 o'clock. The pastor of the Presbyterian church will officiate and burial will be in the village cemetery.

Besides his parents, he is survived by two sisters, Miss Lyla Widger, Binghamton, and Marjorie Widger of Laurens; also a half brother, Ralph Widger of Scranton.

W. C. T. U. PARLOR MEETING

Held at Home of Mrs. E. T. Dickinson Saturday Afternoon.

Decorative, July 9.—A very pleasant parlor meeting of the W. C. T. U. was held at the home of Mrs. E. T. Dickinson Saturday afternoon. The meeting was opened with scripture reading and prayer. A short business session was held. Mrs. Jones of Worcester gave a very interesting talk on the work of the W. C. T. U., describing the different departments of work and giving encouragement by telling something of the work already accomplished. Several of those present told of the benefits derived from living in dry territory as experienced by themselves or their friends.

The meeting was closed with the flag salute and "America," after which light refreshments were served.

FUNERALS.

Mrs. Albert Shafer.

The funeral services for the late Mrs. Albert Shafer were held yesterday afternoon at 2 o'clock at the home, 59 Elm street. The house was filled with friends and relatives who were present to pay their last tribute of respect. Rev. Dr. James C. Russell, pastor of the First Presbyterian church, officiated and spoke many comforting words to the bereaved ones, referring also to the Christian life of the deceased.

After the services at the home, the body was taken to Riverside cemetery for burial. The bearers were Alva Seybold, Charles D. Townsend, Luman R. Green and Samuel Borst. The floral pieces were many and beautiful, proving the esteem in which the departed was held.

The following friends and relatives were present from other places: Mr. and Mrs. Charles Schermerhorn of Stamford; Henry Enderlin, Amelia Enderlin, Sophia Enderlin, Mr. and Mrs. Albert Newcomb, Mrs. Barbara Spilker and daughter of Prattville; Mr. and Mrs. C. W. Enderlin, Mr. and Mrs. A. B. Fowler and daughter, Mr. and Mrs. Claude Herring of Otego; Mrs. Adolphus Enderlin, Rhinebeck; James Desmond, Albany; Mr. and Mrs. George Enderlin, Mrs. David Booth, Mrs. Andrew Booth, Mr. and Mrs. Edward Enderlin, Abraham Enderlin, Fred Enderlin, Rose Enderlin, Roxbury; Mr. and Mrs. Edward Shafer, Mr. and Mrs. Nelson Parslow, Blenheim; Mr. and Mrs. Guy Shafer, Gideon Shafer and Mrs. Lee Chapman, Breakabeen.

Funeral of Mrs. Stringham.

The funeral of the late Mrs. William Stringham of 131 Main street, this city, was held yesterday. There was a prayer service, conducted by her pastor, Rev. B. M. Johns, at the house at 10 a. m. and the body was taken on the 10 o'clock train to East Windsor for interment. The funeral, which was held in the Methodist Episcopal church in that place, was largely attended, there being many old friends of the deceased and of the family present. In the absence of the pastor, the services were conducted by Rev. Mr. Evans of the Presbyterian church, and interment was beside her late husband in the East Windsor cemetery.

Her daughters, the Misses Maud M. and Marie L. Stringham, accompanied by Mrs. Amelia Sloat, accompanied the body to East Windsor, returning last evening.

"GREAT EXPECTATIONS"

One of the Scenes Was Staged on the Iroquois Farm at Cooperstown.

Announcement is made of the presentation at the Oneonta theatre on Wednesday afternoon and evening of one of the famous Players productions which in part was staged on the Iroquois farm at Cooperstown, which will give it special interest in the city and doubtless many visitors to see this particular production. It is a dramatization of Dickens' "Great Expectations" and is being produced by the Paramount program. Miss Louise Huff and Jack Pickford are the leading characters with the former as Estelle and the latter as Pip. Frank Losee, widely known on the legitimate stage for years and an actor who has appeared with the rest, plays the part of Magwitch and it was he that visited Cooperstown accompanied by the camera men with William J. Scully as director to make one of the scenes.

The scene taken upon the Iroquois farm is introduced as a recollection by the old man of his former days tending the flocks in Australia and the rolling hills, the fat Iroquois sheep and the lake in the distance with the shepherd dog of the farm conspicuous in the picture are believed to have lent special charm to the scene. The picture was taken in December last and will be watched for with interest by very many.

WISDOM BY MAYOR.

Food by Drying or Canning.

We have waged, during the spring months, an extensive and successful campaign for an enlarged food production. More garden and farm planting has been done than ever before and we should now turn our attention to the saving of the product. The war situation makes food conservation the patriotic duty of every American citizen. Next winter's supply, both for home consumption and export, must be carefully treasured.

The ease and importance of drying and canning fruits and vegetables should not be overlooked. It can be done with ease in every household and will provide a winter's supply at summer prices.

In common with mayors of other cities, I am urging the people of Oneonta, including our large outlying food producing district, to make every possible saving of food supplies for future emergency, letting nothing of value go to waste.

MANCHESTER IS MARRIED.

Happy Event Kept Quiet Since April—Summer in Household.

A. Rutledge Manchester, second lieutenant under Captain L. J. Gross in the automobile business, and commanding the Leatherstocking garage annex on Chestnut street, is known to be a sly son-of-a-gun. The information has just leaked out that "Butter" was married in Oneonta by the Rev. E. J. Farley on April 13, the bride being Miss Amy G. Baxter, daughter of Mr. and Mrs. John P. Baxter of Cherry Valley. Miss Manchester has been in town for a couple of weeks and is now at the home of her parents in Cherry Valley, where she is tending the flocks in the valley and vegetables to keep her husband good natured this coming winter.

The object in keeping the wedding quiet was in order that the bride might finish her school year before the announcement was made. She is a graduate of the Cherry Valley High school and has been teaching at Westtown, near Schenectady. Mr. and Mrs. Manchester will spend the summer in their houseboat (formerly his) on Otsego lake. (Cooperstown Climber).

The groom is a son of the late Dr. B. B. Manchester and has numerous friends in Oneonta.

Little Folks Make Merry.

CAPTAIN MILLARD'S COMPANY

With Full Ranks Is Ready For Service—Orders to Mobilize Expected at Once—Full Roster of Company.

Field Bakery Company No. 1 of the Quartermaster corps of the State National Guard of New York, of which Captain Jesse A. Millard of Oneonta is commander, has now practically full ranks, and is awaiting orders to mobilize, which are looked for within a few days. Since returning to Oneonta, Captain Millard has worked energetically in recruiting the company, and it is believed that the military unit which he will command will be one of the most competent in its work which will go into the regular service. The men selected have been chosen with care for their special work, only men well adapted for these duties of the bakery unit being accepted.

It is understood that when the order is received the men from up-state of which the company is very largely composed, will mobilize in this city; those from Southern New York at some point later to be designated. The company with adequate equipment will be able to supply bread for from 27,000 to 30,000 troops. In addition to the above there should be given the name of Alvin Bingham, formerly of the Herrioff Clothes shop, who recently was in the Fox Memorial hospital for a slight operation, and who will become a member of the company as soon as he is physically fit.

A MARRIAGE IN WALTON.

Miss Lena McGregor Becomes Bride of Clinton Blackman of Livingston Manor.

Walton, July 9. — A most impressive ceremony was solemnized in the presence of about sixty guests at noon on Thursday last at the home of the bride's parents, Mr. and Mrs. John McGregor near Walton, when their daughter, Lena, and Clinton Blackman were united in matrimony.

The bride was attired in a gown of bobbinet lace over white satin trimmed with satin ribbon and carried a shower bouquet of white carnations and roses. The couple were attended by Miss Helena Votie who carried a bouquet of pink carnations, and Robert Jester, a cousin of the bride. To the strains of Mendelssohn's Wedding March, which continued throughout the ceremony, played by Miss Clara Georgia, the bridal party entered the artistically decorated parlor through a path of scarves and ferns and took their places on a mat of ferns underneath an arch of green from which was suspended a large white bell. The ceremony was performed by the Rev. Lafayette Travis of Treadwell. After congratulations the bride and groom and immediate relatives resorted to the dining room which was decorated with pink roses, while the other guests assembled on the pleasant lawn where they were served to an elaborate luncheon.

The bride's going-away gown was navy blue and white with a charming hat to match. The couple left quietly in an automobile for a short tour and after a time will be at home to their friends at Livingston Manor where the groom has a lucrative position.

The bride is the recipient of many beautiful gifts consisting of silver, cut glass, aluminum, china, linen, money, furniture, etc. A host of friends extended sincerest good wishes for their future happiness.

Bold Court Jesters.

"You are ready enough to point your satire at other people's faults," Queen Bess once said to Clod, one of the court jesters. "But you never say a word about mine." "Ah," exclaimed Clod, "why should I waste time in reminding your majesty of your faults, seeing that they are in everybody's mouth?"

Patch, one of Henry VIII's fools, once sought permission to demand an egg from every husband who was dissatisfied with his wife. No sooner had the king granted his request than Patch proceeded to demand the first egg from him, saying, "Your grace belongs to the class of husbands on whom I am entitled to make levy."

LEMONS BRING OUT THE HIDDEN BEAUTY

Make this lotion for very little cost and just see for yourself.

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to bleach the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white this way. Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well and you have a whole quart of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle, then this lotion will remain pure and fresh for months. When applied daily to the face, neck, arms and hands it should help to bleach, clear, smoothen and beautify the skin.

Any druggist will supply three ounces of orchard white at very little cost and the grocer has the lemons.

MAKES TEST OF MAXWELL CAR.

A. L. Judd Covers 24.9 Miles with Gallon of Gasoline.

The Maxwell Motor company is offering some \$50,000 of Liberty Loan bonds to owners of their cars which succeed in making the best runs with a gallon of gasoline and owners in all sections of the country are competing. At the request of the company in which the local dealers, Camp & Wolcott, united, A. L. Judd made a test of his five-passenger touring car with no special adjustments or change in any way last evening. Starting from the foot of West street on Chestnut street he ran to Wells Bridge and return, the gallon can giving out when he reached the Anderson store on the return, after he had covered 24.9 miles. Mr. Judd was compelled to make two stops, one to give way to a funeral procession and the second to put up the top when it commenced to rain. He was compelled to run with the top up much of the trip, which hindered his progress and reduced the mileage he was able to make. While others have succeeded in making more mileage yet it is true that in many instances they have taken long down grades while Mr. Judd took a fair test down the valley and back again with some hill climbing in the trip. The result is very satisfactory to him and evidences that the car is economical on gasoline.

TRAVEL TO PIKE'S PEAK IN NIGHT

Fifty Members of Local Epworth League Take Long Journey.

Fifty young people of the Methodist Episcopal church made a flying tour from Boston to Pike's Peak last night, making stop-overs at the Hub, Saratoga, Atlanta and the Peak.

It was an excursion tour arranged by the Epworth league and conducted by the Rev. Mr. Johns, Jerry Wilson, Guy McLaury and C. E. Carrington. But, each of these cities was found to be located in a new place: Boston was at the home of Miss Hannah Hickok, Saratoga at the residence of Judge Bolton, Atlanta at Miss Helen Wilder's home, and Pike's peak at the Methodist church.

When the party stopped at Boston they were served with beans and crackers; at Saratoga, they naturally were given potato chips to eat along with sandwiches; at Atlanta, bananas and peanuts were the refreshments laid before the hungry young folks; and at Pike's peak ice cream cones composed the bill of fare.

The round trip cost each member of the sight-seeing party the sum of 17c and the mode of transportation was shank's mare.
